

KNALYSIS
TECHNOLOGIES

The Knalysis Cannabis Patient Manager is built to complement the clinic's natural workflow and benefit both physician and patient. Health technology in the clinic setting increases efficiency—saving money and allowing for more patient care.

Knalysis Cannabis Patient Manager

Developed directly with a national network of clinicians in the medical marijuana domain, the Cannabis Patient Manager serves as a hub of patient health information.

This tool charts medical data (diagnosis, treatment, dosage, strain preference), allows for online signatures, houses vital information (government approvals, prescriptions, reports, notes) and manages appointments. Using cloud-based technology customized to the physician's needs and containing exclusive features, the Cannabis Patient Manager is built for more accurate monitoring and improved patient outcomes.

Features

- Charting of medical data: *diagnosis and treatment*
- Tracking cannabis treatment: *dosage, intake and strain preference*
- Information hub: *attach scanned and e-documents to patient's chart*
- Self-serve registration: *patients may submit their application online*
- Electronic signatures: *approve documents instantly online*
- Reporting: *quick graphs and tabular data views*
- Work with your team: *share charts with your colleagues*
- Manage appointments: *full schedule and calendar*
- Combined reporting and bulk email
- Automatic email alerts
- Billing/Invoicing

www.knalysis.com

We're a Canadian company who envisioned a need for health technology connecting every aspect of the medical marijuana field, and pioneered software to seamlessly link physician, provider, and patient.

Our products were developed directly with a national network of clinicians in the medical marijuana domain, and are built to deliver better monitoring of symptoms, moods, and treatments for both physician and patient.

We're a dynamic team with experience within the full spectrum of the information technology industry. We ensure quality at every stage of development and test our products extensively to meet our rigorous standards.

We're aiming to connect the entire medical marijuana field. Currently, Knalysis products are a catalyst for future software development.
